

Eray Balat

Creative AI Producer & Filmmaker | Citrine Studio

eray@eraybalat.com | eraybalat.com | linkedin.com/in/eraybalat

Kayseri, Türkiye | UTC+3 | Remote, working with clients worldwide

PROFILE

Creative producer and filmmaker combining live footage, motion design and generative media. I take projects from concept and storyboard through editing, animation, sound and finishing. Experienced in product and feature films, animated app screens and short-form social content for clients in the US, Europe and Türkiye. I orchestrate the models myself: APIs, agents and workflows in one pipeline, finished in After Effects and Premiere Pro.

EXPERIENCE

Founder & Creative Producer

Apr 2025 - Present

Citrine Studio | Independent creative studio

- **TennisCut:** produced three vertical product and feature films (15-57 seconds), combining animated real app screens, typography, generated footage and sound design.
- **Bushido:** created a campaign concept in **72 hours:** three films, six products, two recurring synthetic characters and an original soundtrack. [Case study](#)
- **Universal Music Türkiye:** produced two AI music videos, including a release made within a single model family to meet client licensing constraints.
- **FLAWLESS:** directed, wrote, edited and narrated a 17-minute documentary built around an original interview with Leonardo Notarbartolo. [Film & credits](#)

AI Video Producer & Motion Designer

Jun 2024 - Feb 2026

Balp Dijital | Advertising agency, Kayseri

- Produced social motion design for retail and consumer brands, maintaining brand consistency across paid social and app marketing content.
- Integrated AI asset generation into the motion workflow to support fast campaign turnarounds.

Suno Ambassador

2025 - Present

Created short-form videos combining original AI music, self-shot footage and visual storytelling.

Social Media & Event Coordinator | Oniki

Jan 2024 - Dec 2024

Produced content and coordinated events for an AI-powered business matchmaking platform.

PIPELINES

Build my own production tooling with Claude Code: drive After Effects by script and run image and video models through the fal API and Workflow API. One workflow turns a director note in Turkish into shot prompts and renders Kling and Seedance in parallel. Every output is checked frame by frame before it reaches an edit.

SKILLS & TOOLS

Production: concept development, storyboarding, product storytelling, UI animation, kinetic typography, short-form editing, sound design, colour grading and compositing.

Post: After Effects, Premiere Pro, DaVinci Resolve, Topaz Labs.

Generative media: Kling 3.0, Veo 3.1, Seedance 2.5, Nano Banana 2, GPT Image 2.5, Suno, ElevenLabs. **Workflow:** fal API and Workflows, Claude Code, n8n.
